Hello, All

I realize upon review of management approval, that I may have misspoken about the 50% facility fee reduction's eligibility to be further reduced through public benefit. I will recheck with management about their decision.

In the meantime, I would move forward with the assumption that the 50% facility fee is firm, and cannot be reduced further.

I greatly apologize for potentially miscommunicating in the meeting. I will get the facts as quick as possible so that you can move forward with the best information possible.

Best,
